

Career Discovery in Landscape Architecture

Course Code: ARCHCDLA

Faculty of: Architecture

Managed by: Division of Landscape Architecture

Level-of-study: Age: 15-17

Course Period: Aug 1-5, 2022

Type of Programme: Non-credit-bearing course

Area of Interest: Landscape Architecture

Course Fee: HKD 6,800

Eligibility:

- Students: Local; Non-local
- Age: 15-17
- Study Level: Secondary School students

Course Description:

Catering for a growing interest in how ecology and the natural forces interact with the built environment, this program aims to introduce how ecological parameters can be implemented in design strategies. Students will participate in workshops and seminars about sustainability, planting design, cultural landscape, and how ecological processes/ operations inspire the design of landscape spaces.

Course Outline:

This summer programme offers the following learning activities –

1. Landscape Architectural Design Studio
2. Lectures in visual arts, sustainability, cultural landscape, ecological processes and operations
3. Workshops in sketching, technical drawing, model-making, planting, hands-on landscape design installation, and portfolio-making
4. Field trips to key landscape projects in Hong Kong
5. Tours to landscape design offices in Hong Kong
6. Exhibition of design studio works

Course Schedule:

Monday – Friday, 9:30 – 17:00

Programme Director:

Vincci Mak

Course Instructor:

To be confirm
