HKU Summer Institute (for Secondary School students)

Soar High into the Future
HKU Summer Institute offers more than 20 programmes aimed at providing you with a global perspective on the most pertinent issues and topics. Our programmes are structured to deepen your curiosity and intellectual capacity, to connect you with bright minds across the world, and most of all, to build a launch pad for your future!

2022 Summer Period
27/6 - 19/8
**Featured Programmes** *(for Secondary School students)*

**BUSINESS ANALYTICS AND BIG DATA**  
**August 15 - 19, 2022**  
**Level of Study: S3 - S6**  
Through a combination of interactive lectures and demonstrations, this programme offers an introduction to the fundamentals of business analytics and big data applications, and helps students understand the technologies behind these applications.

**FUTURE LEGAL PROFESSIONALS**  
**July 25 - August 5, 2022**  
**Level of Study: S4 - S6**  
This programme allows senior secondary school students to pursue their interest in a legal career, to immerse in the theory and practice of law, and to develop a roadmap to become a legal professional.

**YOUNG PROFESSIONALS IN THE HKU BUSINESS SCHOOL**  
**July 25 - 29, 2022**  
**Level of Study: S3 - S5**  
This programme allows prospective students to explore and discover their interest in various areas of business and economics, and offers some insight into what an undergraduate programme in Business may help them achieve.

**OTHER PROFESSIONALS PROGRAMMES**  
- Career Discovery in Architecture (Hong Kong)  
- Career Discovery in Landscape Architecture  

**YOUNG TALENTS FOR THE GLOBAL CREATIVE INDUSTRIES**  
**July 18 - 22, 2022**  
**Level of Study: S4 - S6**  
This course introduces young students to the creative industries, beginning with the emergence and nature of creative industries. It is then followed by a thorough discussion of creativity and how students can further develop their own creativity.

**OTHER SCIENCE PROGRAMMES**  
- Big Data Analytics in Finance  
- Engineering Science in Response to Global Challenges  
- Explore Planet Earth, its Hazards, Resources and Environmental Change  
- How is Fintech Changing the World?  
- Mathematical Laboratory and Modeling *(Six HKU credits)*  
- Natural Intelligence versus Artificial Intelligence  
- Techniques of Counting  
- The Fascinating World of Fluid Flows: From Airplanes to Micro-swimmers  
- Understanding Stereochemistry with Molecular Models and 3D Printing  
- University Mathematics I *(Six HKU credits)*  
- University Physics *(Six HKU credits)*  

... AND MANY MORE
